1 Nature of operations and fiscal year

Nature of operations

SIR Corp. (the Company) is a private company amalgamated under the Business Corporations Act of Ontario. As at February 9, 2014, the Company operated a total of 56 (February 10, 2013 - 51) Concept and Signature restaurants in Canada (in Ontario, Quebec, Alberta and Nova Scotia) (the SIR Restaurants). The Concept restaurants are Jack Astor's Bar and Grill[®] (Jack Astor's[®]), Canyon Creek Chop House[®] (Canyon Creek[®]) and Alice Fazooli's[®]/Scaddabush Italian Kitchen & Bar[®] and the Signature restaurants are Reds[®] Wine Tavern, Reds[®] Midtown Tavern, Far Niente[®]/FOUR[®]/Petit Four[®], the Loose Moose Tap & Grill[®], Duke's Refresher[™] and Abbey's Bakehouse[®]. The latter two Signature restaurants are not currently part of the Royalty Pooled Restaurants (note 4(b)). The Company opened a new Scaddabush Italian Kitchen & Bar, subsequent to February 9, 2014, on February 18, 2014.

On October 1, 2004, SIR Royalty Income Fund (the Fund) filed a final prospectus for a public offering of units of the Fund. The net proceeds of the offering of \$51,167,000 were used by the Fund to acquire certain bank debt of the Company (the SIR Loan) (note 4(a)) and, indirectly through SIR Holdings Trust (the Trust), all of the Ordinary LP Units of the SIR Royalty Limited Partnership (the Partnership). On October 12, 2004, the Partnership acquired from the Company the Canadian trademarks used in connection with the operation of the majority of the Company's restaurants in Canada (note 4).

The address of the Company's registered office is 5360 South Service Road, Suite 200, Burlington, Ontario. The interim consolidated financial statements were approved by the board of directors on March 24, 2014.

Fiscal year

The Company's fiscal year is made up of 52- or 53-week periods ending on the last Sunday in August. The fiscal quarters for the Company consist of accounting periods of 12, 12, 12 and 16 or 17 weeks, respectively. The fiscal years for 2014 and 2013 consist of 53 and 52 weeks, respectively.

2 Summary of significant accounting policies

Basis of presentation

The Company prepares its condensed interim consolidated financial statements in accordance with International Financial Reporting Standards (IFRS) for interim financial reporting, including International Accounting Standard 34, Interim Financial Reporting. The disclosures contained in these interim consolidated financial statements do not include all requirements of IFRS for annual consolidated financial statements and should be read in conjunction with the August 25, 2013 annual consolidated financial statements and notes thereto. The accounting policies as applied in these unaudited interim consolidated financial statements are consistent with those followed in the August 25, 2013 audited annual consolidated financial statements, except for the adoption of the following new pronouncements.

IFRS 10, Consolidated Financial Statements

IFRS 10 requires an entity to consolidate an investee when it is exposed or has rights to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. IFRS 10 replaced Standing Interpretations Committee 12, Consolidation - Special Purpose Entities, and parts of IAS 27. Management has determined that the adoption of this standard has no impact on the interim consolidated financial statements.

IFRS 12, Disclosure of Interests in Other Entities

IFRS 12 establishes disclosure requirements for interests in other entities, such as joint arrangements, associates, special purpose vehicles and off balance sheet vehicles. The standard carries forward existing disclosures and also introduces significant additional disclosure requirements that address the nature of, and risks associated with, an entity's interests in other entities. Management has determined that the adoption of this standard has no impact on the interim consolidated financial statements. The adoption of this standard will require additional disclosures in the annual consolidated financial statements.

IFRS 13, Fair Value Measurement

IFRS 13 is a comprehensive standard for fair value measurement and disclosure requirements for use across all IFRS. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. It also establishes disclosures about fair value measurement. Management has determined that the adoption of this standard has no impact on the interim consolidated financial statements.

The financial performance of the Company for the interim period is not necessarily indicative of the results that may be expected for the full year due to the seasonality of the Company's business.

Seasonality

The full service restaurant sector of the Canadian foodservice industry in which the Company operates experiences seasonal fluctuations in revenues. Favourable summer weather generally results in increased revenues during the Company's fourth quarter (ending the last Sunday in August) when patios can be open. Additionally, certain holidays and observances also affect dining patterns both favourably and unfavourably.

3 Long-term debt

On August 23, 2013, the Company entered into a Second Amended and Restated Loan Agreement (the Credit Agreement) that includes a term loan (the Term Loan), two development loans, (the Tranche A Development Loan and the Tranche B Development Loan) and uncommitted financing (Tranche C Development Loan).

All loans under the Credit Agreement, except the Tranche C Development Loan are due on November 14, 2016. The Term Loan and the Tranche A Development Loan have a variable interest rate equal to the greater of 6.0% per annum and the three-month Canadian dollar bankers' acceptance rate plus 5.75% per annum, which on February 9, 2014 totalled 6.94%. The Tranche B Development Loan has a variable rate equal to the greater of 6.0% per annum and the three-month Canadian dollar banker's acceptance rate plus 5.65% per annum, which on February 9, 2014 was 6.84%. The Company can also elect to fix the interest rate. The amortization periods

for the Term Loan, the Tranche A Development Loan and the Tranche B Development Loan are ten years, seven years and seven years, respectively.

The Tranche B Development Loan is for a maximum principal amount of \$4,000,000 available to the Company by way of multiple advances until April 10, 2014. As at February 9, 2014, the Tranche B Development Loan was fully drawn. Interest only was payable on the Tranche B Development Loan until it was converted into term debt. As at February 9, 2014, the Tranche B Development Loan is repayable in blended monthly payments of principal and interest of \$60,000.

The Tranche C Development Loan is not to exceed \$6,000,000 and is available to use subject to approval by the lender. The Company has requested a commitment from the lender for additional funding under this loan. Terms and conditions of the Tranche C Development Loan have not yet been agreed on by the lender and the Company.

The Credit Agreement is collateralized by a general security agreement and entitles the lender to a first charge on all of the Company's assets, including a pledge of all shares and the investment in the Partnership and a specific assignment of the rights under the License and Royalty Agreement. However, the lender does not have a pledge over the assets of the Partnership. The Credit Agreement contains certain financial and non-financial covenants that the Company is in compliance with as at February 9, 2014. In addition, the debt is guaranteed by a company owned by the majority shareholder of the Company (a related party), for which guarantee fees of \$48,000 and \$135,000 for the 12-week and 24-week periods ended February 9, 2014 (12-week and 24-week periods ended February 10, 2013 - \$49,000 and \$49,000, respectively) were charged to interest (income) and other expense (income) - net in the consolidated statements of operations and comprehensive income (loss). On November 13, 2009, the Company also issued 26 warrants to the majority shareholder of the Company to acquire Class S Special Shares of the Company. These warrants have been pledged to the senior lender and only exercisable in the event of default.

The Company has recorded its long-term debt at amortized cost. The Company has netted the financing fees against the respective debt and amortizes these costs over the expected life of the long-term debt using the effective interest rate method. Unamortized financing fees netted against the debt as at February 9, 2014 were \$865,000 (August 25, 2013 - \$698,000).

4 SIR Royalty Income Fund

The following is a summary of the transactions with the Fund and the Partnership:

a) SIR Loan

The \$40,000,000 SIR Loan bears interest at 7.5% per annum and is due October 12, 2044. On August 23, 2013, the Company, the Fund and the Partnership entered into an Amended and Restated Subordination and Postponement Agreement to subordinate and postpone their claims against the Company in favour of the lender. The Fund and the Partnership have not guaranteed the Amended Credit Agreement (note 3).

SIR Corp. Notes to Interim Consolidated Financial Statements (Unaudited) **February 9, 2014**

(in Canadian dollars)

The long-term debt is permitted indebtedness within the meaning of the agreements between the Fund, the Partnership and the Company and, as a result, the Fund and the Partnership have, as contemplated in the existing agreements, subordinated and postponed their claims against the Company to the claims of the lender. This subordination, which includes a subordination of the Partnership's rights under the License and Royalty Agreement between the Partnership and the Company, whereby the Partnership licenses to the Company the right to use the trademarks and related intellectual property in return for royalty payments based on revenues, has been effected pursuant to the terms of the Amended and Restated Subordination and Postponement Agreement.

Under the Amended and Restated Subordination and Postponement Agreement, absent a default or event of default under the Amended Credit Agreement, ordinary payments to the Fund and the Partnership can continue and the Partnership can exercise any and all of its rights to preserve the trademarks and related intellectual property governed by the License and Royalty Agreement. However, if a default or an event of default were to occur, then payments to the Fund and the Partnership could cease and the related rights of the Fund and the Partnership could be subject to a "standstill" obligation for a period of up to 120 days (which may be extended if the lender is pursuing remedies). The Amended and Restated Subordination and Postponement Agreement also contains various other typical covenants of the Fund and the Partnership to restrict the amount of additional debt that the Company can incur without the consent of the Fund and the Partnership (which consent shall not be unreasonably withheld).

Interest expense charged to the consolidated statements of operations and comprehensive income (loss) for the 12-week and 24-week periods ended February 9, 2014 was \$698,000 and \$1,396,000, respectively (12-week and 24-week periods ended February 10, 2013 - \$698,000 and \$1,395,000, respectively), which includes interest on the SIR Loan of \$691,000 and \$1,381,000, respectively, (12-week and 24-week periods ended February 10, 2013 - \$698,000, respectively) and amortization of financing fees of \$7,000 and \$15,000, respectively (12-week and 24-week periods ended February 10, 2013 - \$7,000 and \$14,000, respectively). Interest payable on the SIR Loan as at February 9, 2014 was \$345,000 (August 25, 2013 - \$464,000).

The Company has the right to require the Fund to indirectly purchase its Class C GP Units of the Partnership and assume a portion of the SIR Loan as consideration for the acquisition of the Class C GP Units.

* Includes revenue from the SIR Restaurants subject to the License and Royalty Agreement. The Partnership owns the SIR Rights formerly owned or licensed by the Company or its subsidiaries and used in connection with the operation of the majority of the Company's restaurants in Canada. Partnership royalty income is 6% of Pooled Revenue in accordance with the License and Royalty Agreement, plus a Make-Whole Payment for the closed restaurants.

On October 12, 2004, the Partnership issued Ordinary LP and GP Units to the Fund for cash consideration of \$11,167,000. During fiscal 2013, the Fund acquired 1,418,900 Class A LP Units upon SIR's conversion of its Class A GP Units into Fund units. The holders of the Ordinary LP Units and the Class A LP Units are entitled to receive a pro rata share of all residual distributions of the Partnership. The distributions are declared by the board of directors of SIR GP Inc., which is controlled by the Fund. Accordingly, the

Ordinary LP Units and Class A LP Units of the Partnership have been classified as a financial liability in the consolidated statements of financial position. The Ordinary LP Units and the Class A LP Units are accounted for at amortized cost, with changes in the carrying value of Ordinary LP Units and Class A LP Units of the Partnership recorded in the consolidated statements of operations and comprehensive income (loss).

During the 12-week and 24-week periods ended February 9, 2014, distributions of \$1,500,000 and \$3,190,000, respectively (12-week period and 24-week periods ended February 10, 2013 - \$1,344,000 and \$2,498,000, respectively) were declared to the Fund through the Partnership. Distributions paid during the 12-week and 24-week periods ended February 9, 2014 were \$2,447,000 and \$4,336,000, respectively (12-week and 24-week periods ended February 10, 2013 - \$2,126,000 and \$3,225,000, respectively). The Fund, indirectly through the Trust, is entitled to receive a pro rata share of all residual distributions. Distributions payable to SIR Royalty Income Fund as at February 9, 2014 was \$2,800,000 (August 25, 2013 - \$3,946,000).

The Company, as the holder of the Class A GP Units, is entitled to receive a pro rata share of all residual distributions of the Partnership and the Class A GP Units are exchangeable into units of the Fund.

During fiscal 2013, the Company converted 1,418,900 Class A GP Units into Fund units and sold these Fund units (24-week period ended February 10, 2013 – 523,900). Net proceeds received from the sale of the Fund units were \$16,551,000, net of transaction costs of \$1,268,000 (24-week period ended February 10, 2013 - \$6,560,000, net of transaction costs of \$251,000). The gross proceeds, net of certain transaction costs were deposited in an account restricted by the lender. As at February 9, 2014, \$1,000 is held in this account. The Class A LP Units of the Partnership are classified as a financial liability in the consolidated statements of financial position. Accordingly, the gross proceeds received of \$17,819,000 (24-week period ended February 10, 2013 - \$6,811,000) were added to the carrying value of the Class A LP Units. As the Fund's interest in the Partnership has increased, this transaction is not dilutive to the Fund. The Fund has converted the Class A GP Units received into Class A LP Units. The holders of the Class A LP Units are entitled to receive a pro rata share of all residual distributions of the Partnership.

On January 28, 2014, the lender released the security it held on 500,000 Class A GP Units of the Partnership (and any Fund units received upon conversion of Class A GP Units of the Partnership) and required that all sale proceeds be used to fund the costs associated with constructing new restaurants and renovating existing restaurants. Subsequent to February 9, 2014, on February 10, 2014, the Company converted 500,000 Class A GP Units to Fund units, respectively and sold these Fund units for total net proceeds of \$6,757,000 (net of estimated transaction costs of \$219,000). The proceeds net of certain transaction costs of \$6,767,000 were deposited in a restricted account by the lender and, accordingly, will be classified as restricted cash in the consolidated statements of financial position. This disposition of the Fund units will be accounted for as a non-cash transaction in the consolidated statements of cash flows. Subsequent to the disposal of the Fund units, \$4,000,000 of the funds held in the restricted account has been released to the Company. The funds are released upon the Company's presenting eligible capital expenditures to the lender.

As a result of this conversion of the Class A GP Units into Fund units, the Company's interest in the Partnership decreased 5.1% from 30.6% to 25.5%. The Company continues to maintain control of the Partnership and, therefore, continues to consolidate the Partnership.

The Partnership owns the SIR Rights formerly owned or licensed by the Company or its subsidiaries and used in connection with the operation of the majority of the Company's restaurants in Canada. In 2004, the Partnership granted the Company a 99-year licence to use the SIR Rights in most of Canada in consideration for a royalty, payable by the Company to the Partnership, equal to 6% of the revenue of the Royalty Pooled Restaurants (the License and Royalty Agreement).

Under the terms of the License and Royalty Agreement, the Company may be required to pay a Make-Whole Payment in respect of the reduction in revenue for restaurants closed during a reporting period. The Company is not required to pay any Make-Whole Payment in respect of a closed restaurant following the date on which the number of restaurants in the Royalty pool is equal to or greater than 68 or following October 12, 2019, whichever occurs first. On January 1 of each year (the Adjustment Date), the restaurants subject to the License and Royalty Agreement are adjusted for new SIR Restaurants opened for at least 60 days preceding such Adjustment Date. At each Adjustment Date, the Company will be entitled to convert its Class B GP Units to Class A GP Units based on the formula defined in the Partnership Agreement. Additional Class B GP Units may be converted to Class A GP Units in respect of these new SIR Restaurants if actual revenues of the new SIR Restaurants exceed 80% of the initial estimated revenue. In December of each year, an additional distribution will be payable to the Class B GP unitholders based on actual revenues of the new SIR Restaurants exceeding 80% of the initial estimated revenue or there may be a reduction in the distributions to the Class A GP unitholders if revenues are less than 80% of the initial estimated revenue or there may be a reduction in the distributions to the Class A GP unitholders if revenues are less than 80% of the initial estimated revenue.

On January 1, 2014, four (January 1, 2013 - four) new SIR Restaurants were added to the Royalty Pooled Restaurants in accordance with the Partnership Agreement. As consideration for the additional Royalty associated with the addition of four new SIR Restaurants on January 1, 2014 (January 1, 2013 - four), as well as the Second Incremental Adjustment for four new SIR Restaurant added to the Royalty Pooled Restaurants on January 1, 2013 (January 1, 2012 - one), the Company converted its Class B GP Units into Class A GP Units based on the formula defined in the Partnership Agreement. The number of Class B GP Units that the Company converted into Class A GP Units was reduced by an adjustment for the permanent closure of nil (January 1, 2013 - two) SIR Restaurants during the prior year. The net effect of these adjustments to the Royalty Pooled Restaurants was that the Company converted 803,000 (January 1, 2013 - 296,000) Class B GP Units into 803,000 (January 1, 2013 - 296,000) Class A GP Units on January 1, 2014 at an estimated fair value of \$11,436,000 (January 1, 2013 - \$4,326,000).

In addition, the revenues of four (January 1, 2012 - one) new SIR Restaurants added to the Royalty pool on January 1, 2013 exceeded 80% of the Initial Adjustment's estimated revenue and, as a result, an additional distribution of \$169,000 was declared in December 2013 (December 2012 - \$23,000) and paid the following January.

c) Advances receivable from SIR Royalty Income Fund

Advances receivable from SIR Royalty Income Fund as at February 9, 2014 were \$1,977,000 (August 25, 2013 - \$2,372,000). Advances receivable are non-interest bearing and due on demand.

The Company, through the Partnership, has entered into an arrangement with the Fund and the Trust, whereby the Partnership will provide or arrange for the provision of services required in the administration of the Fund and the Trust. The Partnership has arranged for these services to be provided by SIR GP Inc., in its capacity as the Managing General Partner. For the 12-week and 24-week periods ended February 9, 2014, the Partnership provided these services to the Fund and the Trust for consideration of \$5,000 and \$11,000, respectively (12-week and 24-week periods ended February 10, 2013 - \$5,000 and \$11,000, respectively), which was the amount of consideration agreed to by the related parties.

5 Commitments

The Company has four commitments to lease properties, on which it plans to build three new restaurants and one new seasonal Signature outlet. The Company has begun the early stages of construction of two of the restaurants to be built and has further purchase commitments for the construction of these restaurants of \$5,700,000. As at the current date, the Company has not entered into any construction contracts for the other restaurant or the seasonal Signature outlet, but expects to do so in the future. Final costs of construction are subject to uncertainties as to their amounts and timing. Items such as finalization of design and final construction quotations could change the total cost of these projects.
