EVENT PACKAGES

We will work with your group to create a set menu or a buffet style area for your guests. We can deliver the food either all at once or in rounds – whatever suits your style of party, we got you!

We've selected a range of our most popular appetizers and shareable items to form the best party package options; but you can adjust the numbers based on what your crew likes to munch on. We can work with you to suggest how much food to order if you're unsure and work within your budget.

We're not gymnasts, but we are flexible; if you have guests with specific dietary requirements or allergies, we can work to ensure that we have items suitable for them. Just let us know what we're dealing with in plenty of time for us to source the necessary ingredients.

**ALL MENU ITEMS ARE AVAILABLE FOR YOUR PARTY!
YOU CHOOSE WHAT YOU WANT AND HOW MANY!**
